

CHEMICAL RESISTANT CLOTHING

To BSEN 465/466 (Type 3 Jet/Spray Test)

These garments give protection against chemical hazards, including acids, alkalis, oils and solvents. All seams are sewn and high frequency sealed.

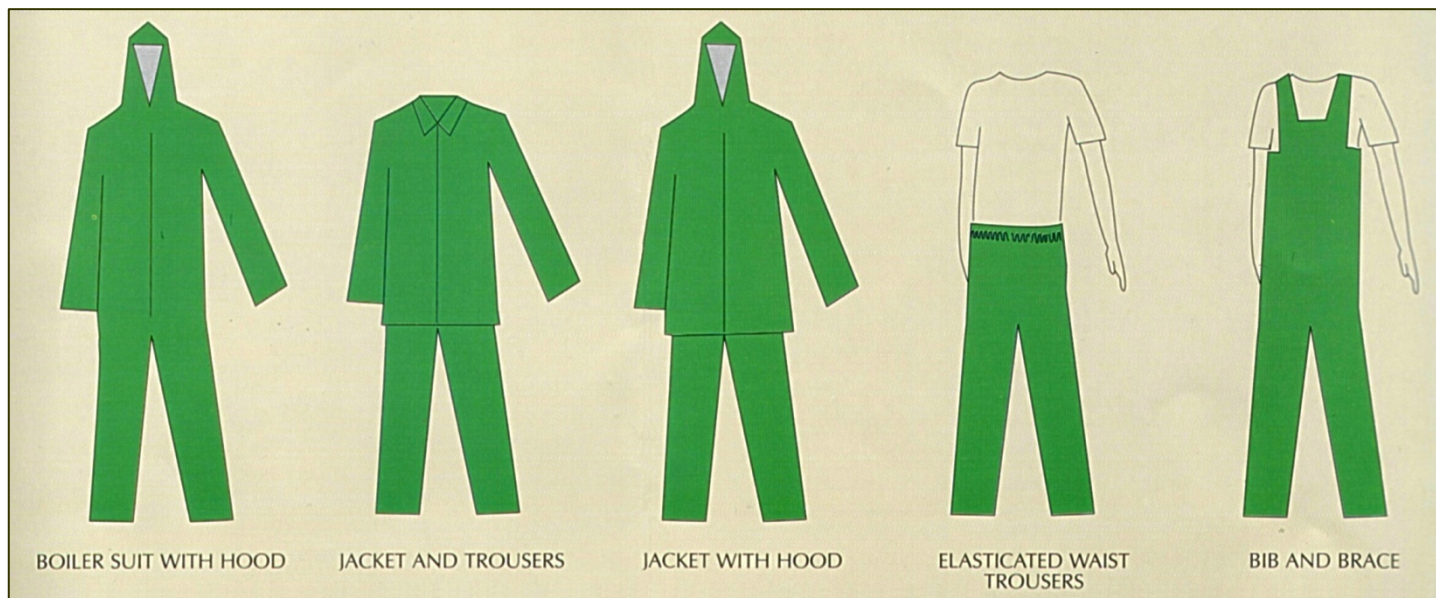

There are 3 ranges

- Chemmaster, made from high tear/abrasion resistant 380 gm² PVC coated nylon.
- Chemsol, lighter weight and more dextrous, made from 320 gm² EPVC/polyester for extra comfort.
- Chemsol Plus, softer & more tactile 340 gm² EPVC/ polyester with flame retardant and antistatic properties

Styles available:

Boilersuit

Accessories

Headgear, sleeve, aprons and other accessories are included in the Chemmaster range.
