

LONG NITRILE GAUNTLET

Long Nite™ is a chemical resistant nitrile coated gauntlet on a cotton liner with an integral nitrile sleeve. This nitrile gauntlet performs well to protect against a wide range of chemicals. It has a granular dip finish over the entire hand area which provides a roughened surface increasing the level of grip for safer handling in both wet and dry conditions. It is anatomically shaped and flexible minimising hand fatigue, and the soft cotton liner eases donning and prevents discomfort keeping the hands dry, cool and comfortable. The integral nitrile sleeve provides extra splash protection to the arms and is elasticated at the top keeping the sleeve in place and preventing any liquids or debris from entering.

Typically used for:

- Chemical Handling
- Oil Filtration
- Drainage Works
- Cleaning & Janitorial
- Agricultural Work
- Local Authority Work
- Printing Work

Sizes: 7, 9, 11

Length: 64 cms
